Portfolio

EDUCATION

VIT Bhopal University

Masters of Computer Applications - CGPA: 8.79

Aug 2023 – Oct 2025

Bhopal, India

Birla Institute of Technology

Bachelors of Computer Applications - CGPA: 8.62

Aug 2020 – May 2023

Jaipur, India

TECHNICAL SKILLS

Programming & Scripting: Python, SQL, Java, C, JavaScript

Machine Learning & AI: Scikit-learn, TensorFlow, Keras, LLMs, LangChain/LangGraph, MCP, Hugging Face Transformers, Groq, RAG pipelines, NLTK, SpaCy, VADER, NLP, Deep Learning

Data Engineering & Workflow: Databricks, AWS SageMaker, DVC, ETL, Feature Engineering, Vector Databases (Chroma, Qdrant)

Data Analytics & Visualization: Pandas, NumPy, Matplotlib, Plotly, Seaborn

Web & Deployment Tools: Flask, FastAPI, Streamlit, API Development, Model Deployment

Databases & Tools: MySQL, SQLite, Jupyter Notebook, VS Code, Git/GitHub, Postman, n8n, Docker

KEY PROJECTS

AI SQL Assistant | Python, LangChain, LangGraph, Flask, MySQL

Nov 2025

- Built a conversational AI to query datasets in plain English, generating SQL and returning results.
- Implemented LangChain for intelligent SQL generation and LangGraph to orchestrate agentic workflows.
- Integrated Flask and MySQL for backend and database management.
- Enabled clear, human-readable answers and result previews for seamless data exploration.

DataHelp.AI – Agentic Data Analysis Assistant | Python, LangChain, Groq, RAG

Jun 2025

- Built a full-stack AI assistant to explore datasets via a conversational interface with dataset-specific context.
- Implemented Retrieval-Augmented Generation (RAG) using LangChain, Groq embeddings, and Hugging Face Transformers for metadata extraction, insights, and preprocessing suggestions.
- Enabled interactive visualizations using Pandas, Plotly, and Streamlit for instant data insights.

Stock Trends Dashboard | Python, Flask, Keras, LangChain, Groq, RAG

May 2025

- Developed an interactive dashboard allowing users to subscribe to any stock ticker and track personalized updates.
- Built an LSTM model to forecast stock closing prices for the next 2 days, providing actionable insights with real time visualizations.
- Integrated AI-driven investment guidance via LangChain with Retrieval-Augmented Generation (RAG).
- Implemented scalable backend for handling multiple tickers and user subscriptions efficiently.

INTERNSHIP

Envision Virtue

Dec 2024 – May 2025

Data Science Intern

Remote, India

- Cleaned and preprocessed datasets, built ML models, and automated workflows using Pandas, Scikit-learn, and TensorFlow.
- Created interactive visualizations to communicate insights effectively.
- Optimized data extraction pipelines, reducing manual preprocessing by 40%.

CERTIFICATIONS

- **AWS Educate: Introduction to Generative AI**
Completed AWS Educate Generative AI training, demonstrating understanding of foundation models and use cases.
- **Software Engineer Job Simulation – Accenture (Forage)**
Hands-on experience in Agile, Software Architecture, Security, Testing, and Programming.
- **Generative AI Fundamentals – Databricks**
Learned core concepts and real-world applications of Generative AI.
- **Databricks for Machine Learning – Databricks**
Gained practical knowledge in deploying and managing ML models on Databricks.
