EDUCATION

VIT Bhopal University

Masters of Computer Applications - CGPA: 8.79

Aug 2023 – Oct 2025

Bhopal, India

Birla Institute of Technology

Bachelors of Computer Applications - CGPA: 8.62

Aug 2020 – May 2023

Jaipur, India

TECHNICAL SKILLS

Programming & Scripting: Python, SQL, Java, C, JavaScript

Machine Learning & AI: Scikit-learn, TensorFlow, Keras, LLMs, LangChain/LangGraph, MCP, Hugging Face Transformers, Groq, RAG pipelines, NLTK, SpaCy, VADER, NLP, Deep Learning

Data Engineering & Workflow: Databricks, AWS SageMaker, DVC, ETL, Feature Engineering, Vector Databases (Chroma, Qdrant)

Data Analytics & Visualization: Pandas, NumPy, Matplotlib, Plotly, Seaborn

Web & Deployment Tools: Flask, FastAPI, Streamlit, API Development, Model Deployment

Databases & Tools: MySQL, SQLite, Jupyter Notebook, VS Code, Git/GitHub, Postman, n8n

KEY PROJECTS

DataHelp.AI – Agentic Data Analysis Assistant | Python, LangChain, Groq, RAG

Jun 2025

- Built a full-stack AI assistant to explore datasets via a conversational interface with dataset-specific context.
- Implemented Retrieval-Augmented Generation (RAG) using LangChain, Groq embeddings, and Hugging Face Transformers for metadata extraction, insights, and preprocessing suggestions.
- Designed multi-agent context-based chat with session isolation for secure deployment on Railway.
- Enabled interactive visualizations using Pandas, Plotly, and Streamlit for instant data insights.

Stock Trends Prediction | Python, Flask, Keras, LangChain, Groq, RAG

May 2025

- Forecasted 3-day stock trends using LSTM and Chart.js visualizations.
- Integrated LLaMA3-70B via LangChain for contextual investment insights using RAG methodology.
- Managed multiple tickers and user subscriptions with scalable data handling and real-time insights.

Reddit Sentiment Analysis | Python, NLTK, VADER, SpaCy, Flask, Plotly

Dec 2024

- Web-based sentiment analysis tool extracting and analyzing Reddit posts/comments using PRAW, VADER, and SpaCy.
- Designed interactive Flask interface for live input of subreddits and result visualization.
- Visualized sentiment trends and topic-based analysis for market research using Plotly.

INTERNSHIP

Envision Virtue

Dec 2024 – May 2025

Data Science Intern

Remote, India

- Cleaned and preprocessed datasets, built ML models, and automated workflows using Pandas, Scikit-learn, and TensorFlow.
- Created interactive visualizations to communicate insights effectively.
- Optimized data extraction pipelines, reducing manual preprocessing by 40%.

CERTIFICATIONS

• Software Engineer Job Simulation – Accenture (Forage)

Hands-on experience in Agile, Software Architecture, Security, Testing, and Programming.

• Generative AI Fundamentals – Databricks

Learned core concepts and real-world applications of Generative AI.

• Databricks for Machine Learning – Databricks

Gained practical knowledge in deploying and managing ML models on Databricks.

• Software Engineering Intern – HackerRank

Completed coding assessments in software development.
